TECHNOLOGY SERVICES ORDER FORM

WHAT WE OFFER

Imagine a space where your brand doesn't just make an appearance - it makes an impact. A place where innovation is seamlessly woven into every detail, and each moment is thoughtfully designed to inspire connection, creativity, and confidence. With advanced technology and a dedicated team by your side, we go beyond simply supporting your goals - we help bring your vision to life in ways that are both meaningful and memorable.

To ensure your experience is as seamless as it is exceptional, we offer a curated selection of connectivity and communication solutions. From tiered Wi-Fi and wired internet to professional-grade telecommunications, each offering is designed to meet the unique demands of your event and elevate every interaction.

Here's a closer look at the solutions available to support your event:

- **Wi-Fi Connection** – Flexible, tiered options to support everything from basic browsing to high-bandwidth streaming.
- **Wired Internet Connection** – Reliable, high-speed access for devices requiring dedicated connectivity.
- **Telecommunications** – Conference phones, DID lines, and house phones to keep your team and guests connected.
- **Labor & Changes** – On-site technical support and service adjustments to ensure everything runs smoothly from start to finish.

EXHIBITOR SERVICES

STANDARD INTERNET - WI-FI OR WIRED

100 DEVICES OR LESS PRICED PER DEVICE, PER DAY
$250 FLAT FEE PER WIRE + TIER OF YOUR CHOICE PER DAY

Tier 2	Up to 10Mbps	$40	Social media and cloud services
Tier 3	Up to 20Mbps	$50	Streaming and large file downloads

TELECOMMUNICATIONS

SUBJECT TO TELECOMMUNICATIONS TAX OF 12.72%

Item	Cost per day	Cost per event * ** 3 days or more*	Description
Conference Phone	$275	$650	Includes wireless mics and domestic outbound calling
DID Phone	$250	$625	Domestic outbound calling from your meeting room
House Phone	$150	$325	Internal hotel extension calling from your meeting room

Important Information

The conference network is protected by a splash screen and offers shared access. Non-dedicated hardline connections are also part of the shared conference network, supporting only one device per line. These connections do not accommodate any networking equipment, e.g. switches, routers, or printers. Should a hardline setup that supports more than one device be required, our team will be happy to configure it.
